

PURPOSE BUILT

Available exclusively from 5.11 Tactical, the Men's Holster Shirt is designed to provide a quick, comfortable, and covert solution for concealed carry wear in casual or off-duty environments. Highly durable fabric pockets under each arm provide plenty of space for a compact handgun, extra magazines or speedloaders, and firearm accessories, while an integrated shoulder yoke evenly distributes firearm weight to maximize accessibility and maintain freedom of movement. In addition, this premium quality holster shirt for men features a layer of outer mesh fabric that disrupts the outline of your firearm to maintain a covert profile in any situation. Moisture wicking technology and a padded neoprene inner layer keep you cool, comfortable, and in control throughout your day.

OVERVIEW:

Twin shoulder pockets for your sidearm and accessories
hook and loop® brand fasteners keep gear secure
Outer mesh layer keeps you covert
Inner padded neoprene layer for comfort
