

## The Buck Bomb: Doe In Estrus

The Buck Bomb Doe In Estrus scent is the most effective way to get to get Estrus scent out to the big boys from a long distance. The Buck Bomb Doe In Estrus is 5-ounces of pure, fresh doe in heat urine.

The Doe In Estrus scent can be dispersed in short bursts from your treestand or ground blind, or locked down to fog out the entire contents. Our unique fogging technology turns the scent into a gas cloud that can travel downwind in excess of 1/4 mile in a 3-mph breeze. It blows through

the woods and across fields leaving a natural scent trail right back to the Buck Bomb can.

The Doe In Estrus scent provides incredible cover scent, creating a barrier between you and animals approaching from downwind. A 5-second burst while stalking, or when sitting in a stand, can quickly help diffuse a shifting wind that could give away your position.

The no-hassle can eliminates the fumbling around for scent wicks, cotton balls, drag lines, or bottles of scent which waste your time and create noise in the woods. A Buck Bomb can be carried in your pocket and has a 180-degree valve that can be sprayed upside-down to create scent trails, mock scrapes, or even spray down a decoy. The Buck Bomb can be sprayed intermittently in short bursts, or the valve can be locked in the down position to empty the entire
